Colorbond®

Made for Australia

Colour

Your most powerful, and personal,
design tool.

Of all the elements of design,
colour has the greatest
impact. It can dominate the
landscape. Influence the
mood. And create the right
feel for your home.

Colour – and the hues you
choose – are, by nature, an
extension of your personality.
They can be subtle where
a muted tone is required.
Bold and brilliant. Cool
and soothing. Warm and
wonderful. Or a magical
combination that's simply you.

With COLORBOND® steel
you can fashion colours
to match your individual
style, integrating them
seamlessly with your garden,
neighbourhood, and your
wider environment.

Handy hint

Experiment with options. Some
colours work better together than
others. Try out different colour
schemes with our colour selector at

My Inspiration

Whiteheaven Beach, QLD

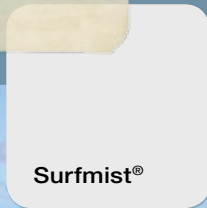

1. Your colour scheme will work best when it's in harmony with the design of your home and the local environment.
2. What are your favourite activities? How do they make you feel? Are the feelings and colours of your favourite activities right for your home?
3. Take a walk and enjoy your favourite spot. Notice the colours and how they work together. Would these colours provide an inspiring palette for your home?

Deep Ocean®

Dune®

Surfmist®

Handy hint

Start at the top. Your roof is one of the largest, most visible surfaces of your home. Which is why many home designers choose their exterior colours from the top down.

Colours of Australia for Australia

Where better to look for inspiration than in our own magnificent landscapes?

From our mountains to the outback, from our creek beds to our sand dunes, COLORBOND® steel captures the light and energy that makes Australia's colours so identifiable.

You'll find 20 inspired colour choices that range from the traditional to the contemporary, all designed to be the perfect palette from which to create the ideal look and feel for your home and garden.

Better still, COLORBOND® steel gives you the palette to mix and match your colours across your roof, fence, garage, pergola and even your rainwater tank.

20 natural colours... endless possibilities

Look how beautiful your roof and surrounds can be with COLORBOND® steel. Each and every colour is designed to look beautiful on your home.

Inspired by the landscapes of our wide country, COLORBOND® steel captures the essence of Australian living in full colour.

Handy hints

Take a weekend off

Installing products made from COLORBOND® steel all around your home has one other major advantage: low maintenance for many years to come.

Throw away your paintbrush

Choose fencing and guttering made from COLORBOND® steel and you'll have more free time on your weekends.

More than a roof, bring your whole house to life

Yes, you need a roof over your head. But why stop there? Thanks to the versatility of COLORBOND® steel you can complete the task of co-ordinating the rest of your home starting with colours from the COLORBOND® steel range.

Plus, you can have fun online seeing how the colours for your whole house come together with our special Colour Visualiser at colorbond.com

Your private oasis

Stylish. Secure. Sensible. A fence made from COLORBOND® steel looks beautiful and lasts beautifully. It won't rot and is 100% termite proof. When installed to our guidelines, there are no gaps or rough edges. Plus you can say goodbye to painting, oiling and repairing broken palings. Choose from 14 designer colours inspired by nature, and add a touch of colour – and privacy – to your garden.

Up, down and around

Your imagination isn't limited with COLORBOND® steel. Now you can coordinate guttering, fascia, downpipes, walls and garage doors to the colour of your roof. Have them blend in – or choose to have them stand out. You create the look and the image you want.

Harvest your rainwater

Available in a range of colours to perfectly match your roof made from COLORBOND® steel. A must for the fire season as they play an important role in defending houses against the threat of bushfire. They can also cut your residential fresh water usage significantly when you use your collected water for the washing machine, flushing the toilet, watering the garden, topping up the pool, or cleaning the car. That's a difference you'll see on your water bill.

Looks good outside, feels good inside

COLORBOND® steel with Thermatech® solar reflectance technology

COLORBOND® steel with Thermatech® is the smart way to enjoy year round comfort in your home. In summer, like added insulation, it makes your roofing material more thermally efficient.

What about darker colours?

Thermatech® is standard across all the 20 COLORBOND® steel colours, even the darker colours in the range perform better than ever. So that gives you a wider range of thermally efficient colours to choose from.

Does it cost more?

No. Thermatech® solar reflectance technology is yours – for no extra cost!

Handy hint

Choosing a roof made from COLORBOND® steel can reduce your annual cooling energy consumption by up to 20%*.

* Depending on level of insulation, building shape and function. Average reduction is about 5%.

Why not try out your ideas and get inspired right now!

Simply go online at

colorbond.com and

experience a fun, easy way to create your colour schemes with our Colour Visualiser. With COLORBOND® steel, you have everything you need to design and realise your ideal oasis using the colours of Australia.

Made for Australia

COLORBOND® steel is 100% made in Australia by one of the country's largest companies, BlueScope Steel. We've been testing COLORBOND® steel for over 40 years in some of the harshest climates across Australia. So you can be sure COLORBOND® steel on your home not only looks beautiful, it lasts beautifully.
